A company is deploying Microsoft SQL Server 2014 Enterprise to its server farm to support a line-of-business application.

The company will use SQL Server 2014 on virtual machines that will move freely across the servers in its estate to provide high availability and load balancing.

Users will access the application from a variety of devices from both the office and from home.

The company will purchase SQL Server 2014 Enterprise licenses that have Software Assurance (SA).

Which three SA benefits support the company's business requirements? Each correct answer presents part of the solution.

- A. Home Use Program
- B. Fail-over server rights
- C. License Mobility through SA
- D. Unlimited visualization rights
- E. Roaming Use Rights
- F. License Mobility within Server Farms

Answer: BCF

Explanation:

B: With the introduction of SQL Server 2014, there are two updates to licensing. Passive fail-over rights are now a benefit of Software Assurance (SA)

C: License Mobility is included as a benefit of SA.
