

Vendor: EMC

Exam Code: E20-002

Exam Name: Cloud Infrastructure and Services Exam

Version: DEMO

QUESTION 1

Which tool helps to create Cloud services?

- A. Service planning tool
- B. Service creation tool
- C. Service management tool
- D. Service monitoring tool

Answer: C

QUESTION 2

Which technique enables making physical resources appear as logical resources?

- A. Virtualization
- B. Utility computing
- C. Self provisioning
- D. Grid computing

Answer: A

QUESTION 3

Which is an essential characteristic of the Cloud?

- A. Resource planning
- B. Resource utilization
- C. Resource pooling
- D. Resource reservation

Answer: C

QUESTION 4

Which is a key step in building a Cloud Infrastructure?

- A. Automate resource classification
- B. Automate service provisioning
- C. Centralize services and resources
- D. Customize services and resources

Answer: B

QUESTION 5

What is the benefit of a RAID?

- A. Improves storage systems performance
- B. Prevents disk failure in a RAID Set
- C. Ensures data integrity in a RAID set
- D. Simplifies distribution of parity across mirrored disks

Answer: A

QUESTION 6

Which statement is true about FC SAN?

- A. Enables object level access to data
- B. Supports a maximum of 256 nodes
- C. Provides higher scalability as compared to DAS
- D. Has limited ability to share resources

Answer: C

QUESTION 7

Which key requirement of a data center refers to the ability of IT to support new business initiatives dynamically?

- A. Capacity
- B. Manageability
- C. Availability
- D. Flexibility

Answer: D

QUESTION 8

Which are the key parameters that determine the performance and availability of a RAID set?

- A. Number of drives in a RAID set and the capacity of each drive
- B. Number of RAID controllers and type of RAID implementation
- C. Number of drives in a RAID set and type of RAID implementation
- D. Number of drives in a RAID set and RAID level

Answer: D

QUESTION 9

Which key requirement of a data center is violated when an authorized storage administrator is not able to remotely login to a server in the data center?

- A. Security
- B. Flexibility
- C. Scalability
- D. Availability

Answer: D

QUESTION 10

What is stored in a virtual machine log file?

- A. Virtual machine BIOS information
- B. Information of virtual machine's activities

- C. Information of virtual machine's configuration
- D. Virtual machine's RAM contents

Answer: B

QUESTION 11

Which parameter determines the maximum amount of resource that a virtual machine can consume?

- A. Limit
- B. Share
- C. Priority
- D. Reservation

Answer: A

QUESTION 12

Which technology enables a physical CPU to appear as two or more logical CPUs?

- A. Ballooning
- B. Multi-core
- C. Hyper-threading
- D. Load balancing

Answer: C

QUESTION 13

Which Virtual Machine File System feature ensures that a virtual machine is not powered on by multiple compute systems at the same time?

- A. On-power lock
- B. On-compute lock
- C. On-disk lock
- D. On-VM lock

Answer: C

QUESTION 14

Which is the primary function of hypervisor

- A. Allows multiple file systems to run concurrently on a virtual machine
- B. Allows multiple operating systems to run concurrently on a virtual machine
- C. Allows authorization to virtual machine resources to users
- D. Allows multiple operating systems to run concurrently on a physical machine

Answer: D

Thank You for Trying Our Product

Braindump2go Certification Exam Features:

- ★ More than **99,900** Satisfied Customers Worldwide.
- ★ Average **99.9%** Success Rate.
- ★ **Free Update** to match latest and real exam scenarios.
- ★ **Instant Download** Access! No Setup required.
- ★ Questions & Answers are downloadable in **PDF** format and **VCE** test engine format.
- ★ Multi-Platform capabilities - **Windows, Laptop, Mac, Android, iPhone, iPod, iPad**.
- ★ **100%** Guaranteed Success or **100%** Money Back Guarantee.
- ★ **Fast**, helpful support **24x7**.
