

**Vendor:** IBM

**Exam Code:** 000-573

**Exam Name:** IBM Tivoli Netcool/Impact V6.1  
Implementation

**Version:** DEMO

**QUESTION NO: 1**

An IBM Tivoli Netcool/Impact V6.1 system is configured to perform event enrichment by retrieving ObjectServer events which have an empty Location field. Which Service Log can be used to verify that Netcool/Impact is selecting events from the ObjectServer based upon that condition?

- A. the PolicyLogger service
- B. the PolicyActivator service
- C. the OMNIBusEventReader service
- D. the OMNIBusEventListener service

**Answer: C**

**QUESTION NO: 2**

Which command line function should be executed prior to applying a product fix or upgrading the IBM Tivoli Netcool/Impact Server as best practice?

- A. nci\_crypt
- B. nci\_policy
- C. nci\_trigger
- D. nci\_export

**Answer: D**

**QUESTION NO: 3**

How is the name of the IBM Tivoli Netcool/Impact Server Instance on the console identified?

- A. check the IBM Installer utility ltsll.sh to show the Impact Server Instance Names that have been set up
- B. check the TIPProfile/logs/server1 directory - the SystemOutlog holds the Impact Service Instance name
- C. use the nci\_server command line utility to show the Impact Server Instance Names that have been set up
- D. check the impact/etc directory - all Impact Server Instance-related files use the Instance Name in the beginning of every file name

**Answer: D**

**QUESTION NO: 4**

In which folder are the IBM Tivoli Netcool/Impact V6.1 service logs stored?

- A. \$NCHOME/logs
- B. \$IMPACT\_HOME/log
- C. \$IMPACT\_HOME/logs
- D. \$IMPACT\_HOME/services/logs

**Answer: C**

**QUESTION NO: 5**

A new Impact Server will be installed using the console mode of the installer application. Which statement is true?

- A. All default ports must be available.

- B. The installer will not check if the required ports are available.
- C. A starting point of ports can be selected if the default ports are not available.
- D. The installer will adapt the required ports if some are tested as in use during the installation.

**Answer: C**

**QUESTION NO: 6**

In order for IBM Tivoli Netcool/Impact V6.1 to start using the ObjectServer for authentication, the server must be configured so that it can map the roles that the application exposes to groups and/or users managed in IBM Tivoli Netcool/OMNIBus. Which file must be edited for this purpose?

- A. omnibus.conf
- B. omnibususers
- C. guiserver.setting
- D. objectserver.conf

**Answer: C**

**QUESTION NO: 7**

On a server with only command line access, the server in an IBM Tivoli Netcool/Impact cluster is identified as acting as a primary server by using which command line utility?

- A. nci\_server
- B. nci\_trigger
- C. nci\_get\_primary
- D. nci\_findendpoint

**Answer: C**

**QUESTION NO: 8**

Which component of IBM WebSphere is installed with IBM Tivoli Netcool/Impact V6.1?

- A. WebSphere MQ
- B. WebSphere Portal Server
- C. WebSphere Process Server
- D. Embedded WebSphere Application Server

**Answer: D**

**QUESTION NO: 9**

What is the purpose of a project in IBM Tivoli Netcool/Impact V6.1?

- A. It allows for creating subsets of the elements stored in the global repository.
- B. It allows for creating subsets of the elements stored in the Impact repository.
- C. It allows for creating subsets of the elements stored across cluster members.
- D. It allows for creating supersets of the elements stored in the global repository.

**Answer: A**

**QUESTION NO: 10**

Which three IBM Tivoli Netcool/Impact roles in Tivoli Integrated Portal can be used to control users access to navigation pages in the GUI and to permit users to unlock their own files?

- A. impactSuperUser, impactFullAccessUser, and impactOpViewUser
- B. impactAdminUser, impactReadWriteUser, and impactOpViewUser
- C. impactAdminUser, impactFullAccessUser, and impactOpViewUser
- D. impactAdminUser, impactFullAccessUser, and impactReadOnlyUser

**Answer: C**

**QUESTION NO: 11**

Which step is required to design an IBM Tivoli Netcool/Impact V6.1 solution from stakeholder requirements?

- A. Determine if the correct Java version is installed.
- B. Create an architecture and a raw functional design of policies.
- C. Determine if enough disk space is provided on the installation servers.
- D. Interview the operational staff to determine their most efficient way to resolve a problem

**Answer: B**

**QUESTION NO: 12**

What are two ways Data Source Adapters are used in IBM Tivoli Netcool/Impact V6.1?  
(Choose two.)

- A. to monitor Netcool/Impact services
- B. to communicate with external data sources
- C. to extend the capabilities of Netcool/Impact
- D. to apply product fixes to the Netcool/Impact Server
- E. to start the policy logging service in Netcool/Impact

**Answer: B,C**

**QUESTION NO: 13**

Given only command line access, where is it verified that a newly started IBM Tivoli Netcool/Impact Server instance is registering itself as a slave or primary in a cluster?

- A. in the server.log file
- B. in the netcool.log file
- C. in the systemOut.log file
- D. using the nci\_server utility

**Answer: B**

**QUESTION NO: 14**

Which tool will start a policy from the command line?

- A. nci\_crypt
- B. nci\_policy
- C. nci\_trigger
- D. nci\_import

**Answer: C**

**QUESTION NO: 15**

What is true about the LDAP DSA?

- A. It does not support data saved in UTF-8 format.
- B. It does not retrieve information from LDAPV2/V3.
- C. It allows IBM Tivoli Netcool/Impact to add, modify, or delete information managed by the LDAP server.
- D. It does not allow IBM Tivoli Netcool/Impact to add, modify, or delete information managed by the LDAP server.

**Answer: D**
