

Vendor: Android

Exam Code: OA0-002

Exam Name: Android Application Engineer Certifications
Basic

Version: DEMO

QUESTION 1

Which of these is the correct explanation of the UI/Application Exerciser Monkey (Monkey tool)?

- A. It can execute tests covering all events.
- B. It can execute stress tests and sometimes discover new bugs.
- C. Even if an error is discovered, it cannot repeatedly reproduce the same operating state
- D. Since it reduces the interval between events as much as possible, it operates in a heavily- loaded state.

Answer: B

QUESTION 2

Which of these is the incorrect explanation of the Android SDK and AVD Manager?

- A. They are provided from version 1.6 of the SDK. Up to Version 1.5, there was an AVD Manager but it lacked SDK management functions.
- B. You can create and startup AVD, and on startup you can delete user data up to that point.
- C. The "android" command can be used if "<SDK install folder>/tools" is added to the command path.
- D. The development tools that can be downloaded from Android SDK and AVD Manager are SDK-platform, NDK-platform, emulator images, and USB drivers for handsets.

Answer: D

QUESTION 3

Which is the correct explanation of the Foo.java source code?

```
01: class Foo {  
02:     private native String bar(String s, int i , int j);  
03:  
04:     public static void main (String[] args) {  
05:         Foo foo = new Foo();  
06:         String str = foo.bar("JNI Problem", 2, 3);  
07:         System.out.println(str);  
08:     }  
09:  
10:     static {  
11:         System.loadLibrary("Foo");  
12:     }  
13: }
```

- A. Since mapping will occur to C/C++, int must be declared as jint.
- B. String, which is a reference type, cannot be used in the native method
- C. Visibility cannot be declared as private in the native method.
- D. The compile will succeed without problems.

Answer: D

QUESTION 4

Which of the following dialogs is displayed at the time of executing the given code? (Assume no problems in the rest of the application.)

```
01: AlertDialog.Builder builder = new AlertDialog.Builder(this);  
02: builder.setTitle("Color");  
03: builder.setSingleChoiceItems(new String[]{"Red","Green","Blue"}, 1, null);  
04: AlertDialog dialog = builder.create();  
05: dialog.show();
```

a.

c.

b.

d.

- A. Option a
- B. Option b
- C. Option c
- D. Option d

Answer: C

QUESTION 5
