

Vendor: HP

Exam Code: HP2-E53

Exam Name: Selling HP Enterprise Solutions

Version: DEMO

QUESTION 1

Which HP solution significantly reduces errors in PDU wiring configurations by immediately identifying them?

- A. HP Intelligent PDUs
- B. HP Power Discovery Services
- C. HP Thermal Discovery Services
- D. HP Location Discovery Services

Answer: A

Explanation:

http://h18004.www1.hp.com/products/quickspecs/DS_00193/DS_00193.pdf

QUESTION 2

Which HP tool provides 24x7 automated event logging, which enables fault event information to be correlated with information such as Power-on self-test results, and, hence, typically provides 66% faster time to problem resolution?

- A. Insight Control
- B. Insight Remote Support
- C. Insight Dynamics
- D. iLO 4

Answer: A

QUESTION 3

The storage industry, more than other IT areas, is currently experiencing a major technology change. What is the key reason for this change?

- A. Many storage systems are not built to handle big data, which requires a fully virtualized environment.
- B. Many customers are moving to cloud-based service delivery and do not have the IT infrastructure nor storage capacity to cope with the increased data demands.
- C. Many storage systems today, whether they are monolithic or modular, can handle only application-unique data.
- D. Most storage systems available today were designed to cope with IT requirements of 15-20 years ago and are built to handle application-unique silos, predictable workloads, and structured data.

Answer: D

QUESTION 4

Which statement accurately describes the HP Converged Infrastructure Maturity Model (CI-MM)?

- A. It is a process to evaluate the customer's total datacenter capacity requirements over the next three to five years
- B. It is a process that HP has developed to help company executives determine the cost of building a new disaster recovery center
- C. It is a process to evaluate a customer's current state in terms of CI Maturity and then maps this against other customers in similar industries before making recommendations.

- D. It is a process to establish utilization levels across the customer's server and storage infrastructure and provide the basis for making recommendations for greater cost efficiency

Answer: C

QUESTION 5

HP 3PAR can deliver what level of improvement in storage provisioning time?

- A. 4 times
- B. 6 times
- C. 8 times
- D. 10 times

Answer: C

QUESTION 6

Which HP solution is ideal for companies With Windows-centric environments that need to efficiently file and control the cost of unstructured data?

- A. X5000
- B. 3PAR
- C. P4000
- D. P6000

Answer: A

Explanation:

http://h18000.www1.hp.com/products/quickspecs/14154_div/14154_div.pdf (page 1, second para)

QUESTION 7

What type of data offers the biggest opportunity?

- A. Mainframe
- B. Database
- C. Block
- D. Unstructured

Answer: D

QUESTION 8

You have a customer with multiple regional and branch offices that wants to set up reliable, rich media video collaboration to decrease travel and training costs. Which AllianceONE solutions should you suggest?

- A. Riverbed Steelhead and Avaya Aura
- B. Riverbed Steelhead and Netscout nGenius
- C. Microsoft Lync and Polycom RealPresence
- D. Citrix Netscaler and Netscout nGenius

Answer: C

QUESTION 9

Why are typical customer network installations not able to efficiently support current requirements for server-to-server traffic?

- A. Legacy networks used low-cost technology that was not designed for current requirements.
- B. Legacy networks inherently do not have high bandwidth communication paths.
- C. Legacy networks were designed to primarily support user-to-computer interactions.
- D. Legacy networks often have multiple management environments.

Answer: A

QUESTION 10

Which database product provides an open-sourced environment with Oracle compatibility for HP Integrity servers, including Superdome 2?

- A. IBM DB2
- B. NonStopSQL
- C. SAP Sybase IQ
- D. EnterpriseDB

Answer: D

QUESTION 11

Your customer has G5 and G6 servers installed. Which Opex savings could they expect to achieve by moving to ProLiant Gen8, based on IDC research?

- A. at least 8%
- B. at least 20%
- C. at least 33%
- D. at least 63%

Answer: B

QUESTION 12

What does HP location-based intelligence do?

- A. It increases data center level compute capacity.
- B. It automates asset tracking of servers in racks
- C. It lowers energy and space requirements.
- D. Identifies power configuration errors.

Answer: B

Explanation:

<http://www.worldhostingdays.com/downloads/2012/mFtag1b.pdf> (Slide 18, first bullet)

QUESTION 13

In developing the DL980 G7, what did HP use to create a highly differentiated server product?

- A. HP Virtual Connect
- B. HP Thermal Logic
- C. HP BladeSystem Matrix
- D. HP mission-critical computing expertise and HP PREMA architecture

Answer: D

Explanation:

http://h20427.www2.hp.com/campaign/promotion/kr/ko/09_storagesolution/doc/PREMA_architecture-Intro.pdf

QUESTION 14

Which statement best describes the HP VirtualSystem?

- A. HP VirtualSystem optimizes dedicated workloads such as data management, business reporting/analytics, and collaboration
- B. HP VirtualSystem simplifies and extends converged infrastructure into optimized, turnkey solutions that reduce costs for server and desktop virtualization
- C. HP VirtualSystem enables several operating systems to be run in parallel on a single CPU to reduce overhead costs.
- D. HP VirtualSystem enables IT departments to manage based on perceived activity, where computer processing power is seen as a utility that users can pay for only as needed.

Answer: B

Explanation:

<http://revistaitnow.com/technologyday/conferenciaspdfs/guatemala/HP-Arquitectura-Convergente.pdf> (page 9, see hp virtualsystem in fine print.)

QUESTION 15

How do HP VirtualSystems increase deal size?

- A. They require more processor blades than conventional systems.
- B. They include high value software components
- C. They move the deal to strategic virtualization solutions and services.
- D. They require larger storage systems than conventional architectures.

Answer: C

Thank You for Trying Our Product

Braindump2go Certification Exam Features:

- ★ More than **99,900** Satisfied Customers Worldwide.
- ★ Average **99.9%** Success Rate.
- ★ **Free Update** to match latest and real exam scenarios.
- ★ **Instant Download** Access! No Setup required.
- ★ Questions & Answers are downloadable in **PDF** format and **VCE** test engine format.
- ★ Multi-Platform capabilities - **Windows, Laptop, Mac, Android, iPhone, iPod, iPad.**
- ★ **100%** Guaranteed Success or **100%** Money Back Guarantee.
- ★ **Fast**, helpful support **24x7**.
