

**Vendor:** Adobe

**Exam Code:** 9A0-327

**Exam Name:** Adobe CQ 5.5 Component Developer ACE  
Exam

**Version:** DEMO

#### QUESTION 1

You are working with two components: Component A and Component B. Component B has a slightly different behavior than component A. What is the best way to reuse the default script of component A in component B?

- A. Set a property in component B called sling:resourceSuperType with the path to component A and omit the default script in component B
- B. Set a property in component B called sling:resourceSuperType with the path to component A and create an empty default script in component B
- C. Set a property in component B called sling:resourceSuperType with the path to component A and include the default script of component A in the default script in component B
- D. Copy the default script from component A into component B

**Answer:** A

#### QUESTION 2

What does an Item represent in a JCR repository hierarchical content model diagram?

- A. The value to be stored
- B. A Node or a Property
- C. The UUID of Node
- D. The path to a Node

**Answer:** B

#### QUESTION 3

Which access control policies does the JCR Session define to manage nodes?

- A. Privileges to access the JCR workspace.
- B. Permissions to access the JCR repository.
- C. Capabilities to traverse the JCR repository.
- D. A list of node locks in the JCR workspace.

**Answer:** A

#### QUESTION 4

How do you delete a property inside a Node object?

- A. `node.removeProperty("propertyName");`
- B. `String propertyA = ""; node.setProperty("propertyName", propertyA);`
- C. `String propertyA = null; node.setProperty("propertyName", propertyA);`
- D. `node.delete("propertyName");`

**Answer:** C

#### QUESTION 5

You are creating a repository-based OSGi configuration. Which name should the factory configuration node have?

- A. Append "-factory" to the configuration node name.
- B. Start the node name with "config-" and end it with "-<numeric\_value>".
- C. Append "-<identifier>" to the name, where identifier can be any unique name.
- D. Start the node name with "factory-".

**Answer: C**

#### QUESTION 6
