

Vendor: IBM

Exam Code: C2010-504

Exam Name: Migration Engine from Butterfly Software
V6.05 Fundamentals

Version: DEMO

QUESTION 1

What is required to begin planning a Butterfly Migration?

- A. A Backup AER from Butterfly Software.
- B. The date when the source IBM Tivoli Storage Manager (TSM) server is upgraded to TSM V6.1.
- C. The date when all TSM clients upgrade to TSM V6.3 are complete.
- D. The total size of the TSM active client data in the primary storage pool.

Answer: D

QUESTION 2

Which statement is true of a Migration Engine from Butterfly software alert?

- A. Alerts can be e-mailed to a pre-defined distribution list.
- B. Alerts can be applied to a specific migrator or exporter.
- C. Alerts can be applied to a specific source-target combination.
- D. Alerts can be sent to an individual e-mail without a distribution list

Answer: A

QUESTION 3

What is the difference between an exporter and a migrator?

- A. An exporter migrates IBM Tivoli Storage Manager (TSM) data; a migrator migrates Independent Software Vendor (ISV) data.
- B. A migrator migrates TSM data; an exporter migrates ISV data.
- C. A migrator migrates structured data; an exporter migrates all types of data.
- D. An exporter migrates structured data; a migrator migrates all types of data.

Answer: D

QUESTION 4

How many nodes should be included in a migration batch?

- A. no more than 10
- B. as many as possible
- C. all nodes that are not a member of any target group
- D. all nodes that are not a member of any source group

Answer: A

QUESTION 5

Which two statements describe what is stored in the Migration Engine from Butterfly software (ME) database?

- A. user credentials and migration log files
- B. a compressed version of the source backup data and log files
- C. hash keys for all the deduplicated data from the source environment
- D. a deduplicated version of the source backup data and the migration log files

E. metadata on the backup data. ME configuration data, and migration status information

Answer: AB

QUESTION 6

Which two IBM Tivoli Storage Manager V6.4 processes need more than the minimum required memory when used?

- A. Reclamation
- B. Node Replication
- C. Database Backup
- D. Disaster Recovery
- E. Data Deduplication

Answer: AB

Explanation:

<https://www.ibm.com/developerworks/community/wikis/home?lang=en#!/wiki/Tivoli%20Storage%20Manager/page/Guidelines%20for%20node%20replication>

QUESTION 7

After upgrading the IBM Tivoli Storage Manager V6 server, searching the activity log for which error code checks for database corruption?

- A. ANS999I
- B. ANE777S
- C. ANR999D
- D. ANW777S

Answer: C

Explanation:

ftp://ftp.software.ibm.com/software/au/downloads/pulse_ANZ/sm/Session5.pdf

QUESTION 8

Which two migration batch types only require one submit if there are no errors during migration processing?

- A. Offline
- B. Active First
- C. Pre-Cutover
- D. Archive First
- E. Post-Cutover

Answer: AC

Thank You for Trying Our Product

Braindump2go Certification Exam Features:

- ★ More than **99,900** Satisfied Customers Worldwide.
- ★ Average **99.9%** Success Rate.
- ★ **Free Update** to match latest and real exam scenarios.
- ★ **Instant Download** Access! No Setup required.
- ★ Questions & Answers are downloadable in **PDF** format and **VCE** test engine format.
- ★ Multi-Platform capabilities - **Windows, Laptop, Mac, Android, iPhone, iPod, iPad**.
- ★ **100%** Guaranteed Success or **100%** Money Back Guarantee.
- ★ **Fast**, helpful support **24x7**.
