

**Vendor:** Oracle

**Exam Code:** 1Z0-133

**Exam Name:** Oracle WebLogic Server 12c: Administration I

**Version:** DEMO

### QUESTION 1

Which three statements are true about WebLogic clusters?

- A. Clusters provide clients with transparent failover.
- B. EJB applications can be targeted to entire cluster.
- C. Allcluster members must bindto the same port number.
- D. Cluster members replicate application data by using heartbeats.
- E. Cluster members can be associated with one or moredomains.
- F. Web applicationsrequire a proxy in order to be used in a cluster.

**Answer:** ABC

### QUESTION 2

You are using WebLogic Server Diagnostic Framework (WLDF) Instrumentation in a system diagnostic module. The Dye Injection monitor is enabled. You know the diagnostic context ID of the request you are Interested in that was processed by several. You are looking through the messages in the server log file of several.

Which statement is true?

- A. You need to look at the EventsData Archive.  
Server log files do not contain WL DF context IDs
- B. You need tolook at the Harvested Data Archive.  
Server log files do not contain WL DF context IDs.
- C. You need to look atthe domain log file.  
Only the domain log file contains WL DF context IDs.
- D. You can search the server log file for the context ID.  
Any messagethat was written to the log IDsduring thatrequestwill contain the contextID.
- E. You need to translate the context IDInto the corresponding transaction ID, which is the only ID in server log file entries.

**Answer:** A

### QUESTION 3

A WebLogic Server instance can have multiple network channel for it.

Each channel for the server must have a unique combination of two element. Identify these two elements.

- A. Tunneling enabled
- B. Listen address
- C. Listenport
- D. Listen port
- E. Channelweight

**Answer:** BC

### QUESTION 4

Identify two reasons for defining machines and assigning servers to them in WebLogic servers.

- A. A machine can be the proxy to a cluster.
- B. A machine definition is required to configured figure the Node Manager.

- C. To reference an instance of WebLogicServer, you must know its machine and port.
- D. A machine is a required organizational unit. A domain contains machines and machines contain servers.
- E. WebLogicServer uses server machine assignment to help it choose servers in a cluster on which to replicate session state.
- F. A machine's Cluster Weight attribute may be used by load balancers to help them determine how often to send requests to servers assigned to that machine.

**Answer:** DE

#### QUESTION 5

You use the administration console to start a managed server. Select the three statements that must be true.

- A. In the domain configuration, the managed server is assigned to a machine.
- B. The Node Manager process is running on the administration server's machine.
- C. The Node Manager process is running on the managed server's machine.
- D. The administration server uses one way SSL to communicate with the Node Manager.
- E. In the domain configuration, the Node Manager has been configured for the machine.
- F. You have configured the Java-based Node Manager. The administration console cannot communicate with the script-based Node Manager.

**Answer:** ACE

#### QUESTION 6

Which two statements are true about WebLogic data sources?

- A. Data sources are targeted to a domain.
- B. Data sources are bound in the JNDI tree of a server.
- C. Data sources are based on the JMS specification.
- D. A data source contains a connection pool.
- E. A domain requires at least one data source.

**Answer:** BD

#### QUESTION 7

A WebLogic server domain contains a dynamic cluster called "cluster1". The cluster "cluster1" has two dynamic managed servers "server1" and "server2". There is a need to view the inherited attribute values for "server2".

How do you view all attributes of "server2", including those inherited from the server template?

- A. Use WebLogic Administration console > "server" link.
- B. Use `javaweblogic.Deployer`.
- C. You cannot, because attribute values are not inherited.
- D. Use WLST.

**Answer:** B

#### QUESTION 8

A web application is configured for in-memory replication and is deployed to a cluster. This cluster is distributed across two buildings on a university campus. For performance reasons, you requires that session replication occur within the building whenever possible. How do you implement this requirement?

- A. Disable the dynamic server list in the proxy plug -in.
- B. Configure the clusterto use multicast communication.
- C. Configure the application's cookies parameters.
- D. Configure each server's replication group.

**Answer: D**

#### QUESTION 9

You need to configure WebLogic Server to satisfy the needs of your new application that will update more than one data set on several databases in the same transaction. Which setting should be considered?

- A. EnableusexaDatasourceinterfacein the transactionproperties of each data source.
- B. WebLogic Server supports distributedtransactionsby default, so on specific settingsare required.
- C. Split the transaction into multiple local transactions.
- D. Configureyour data sources with the available XA-compliant driver for your DBMS.
- E. Enable Two-phasecommit in each data source.

**Answer: E**

#### QUESTION 10

During a performance test, a server's log includes several out of memory error messages. You are using the Administration console. How can you verify the amount of available heap in the server?

- A. Click the server `s Debug > Heap tab.
- B. Clickthe server's Debug >Health tab.
- C. Click the server's Monitoring >Health tab.
- D. Click the server's Monitoring > Threads tab.
- E. Click the server `s Monitoring >performance tab.

**Answer: C**

#### QUESTION 11

You domain's security realm has two authentication provides :1dap1 and 1dap2. Consider these requirements:

- If authentication succeeds with 1dap1, then skip 1dap2.
- If authentication fails with 1dap1, then authentication must succeed with 1dap2.

Which control flag should you use for 1dap1?

- A. Required

- B. Requisite
- C. Sufficient
- D. Optional

**Answer: A**

#### **QUESTION 12**

You are in the process of planning a deployment in which a single WebLogic cluster will host a web application. There are several options to consider. Which is not a valid decision?

- A. Proxyplug-in or hardware load balancer
- B. Configured or dynamic cluster
- C. Replicated or persistent HTTP sessions
- D. Unicast or multicast communication
- E. Single or multiple domains

**Answer: A**

#### **QUESTION 13**

You shut down a managed server by using the administration console. Which statement is always true?

- A. The managed server was running on the same machine as the administration server.
- B. Node Manager is configured properly and running on the managed server's machine.
- C. You can choose to shut down the server right away or after it completes its work.
- D. The administration console calls WLST to accomplish the shutdown.

**Answer: C**

#### **QUESTION 14**

A new machine was given to your department. This machine has two WebLogic server 12.1.2 installation, each with different inventories. Which command or tool do you determine the differences in products installed in each of the inventories?

- A. None, inventories are used by Oracle databases only.
- B. `ORACLE_HOME/wiserver/bin/compareInventory-sh-oracle-home1 <oracle-home1 location> - oracle-home2 <oracle-home2 location>`.
- C. The Oracle Inventory Viewer utility
- D. `ORACLE_HOME2 < oracle _home2 location >`.

**Answer: D**

## Thank You for Trying Our Product

### Braindump2go Certification Exam Features:

- ★ More than **99,900** Satisfied Customers Worldwide.
- ★ Average **99.9%** Success Rate.
- ★ **Free Update** to match latest and real exam scenarios.
- ★ **Instant Download** Access! No Setup required.
- ★ Questions & Answers are downloadable in **PDF** format and **VCE** test engine format.
- ★ Multi-Platform capabilities - **Windows, Laptop, Mac, Android, iPhone, iPod, iPad**.
- ★ **100%** Guaranteed Success or **100%** Money Back Guarantee.
- ★ **Fast**, helpful support **24x7**.
