QUESTION 4

You want to import a Microsoft Excel spreadsheet and format the data using InDesign table features. What would be the most efficient way to do this?

- A. Save the Excel document in the CSV format. In InDesign, use File > Place to place the CSV file.
- B. Choose File > Place in InDesign, choose the Excel document, click OK, and then click.

- C. Select the cells in Excel and copy them to the clipboard. In InDesign, place the Type cursor in a text frame and paste.
- D. Select the cells in Excel and copy them to the clipboard. In InDesign, drag out a frame with the Table tool and then paste.

Answer: B

QUESTION 5

Which is a true difference between the Color panel and the Swatches panel?

- A. The Color panel lets you apply a Lab color.
- B. The Swatches panel lets you apply the same color to more than one frame.
- C. The Swatches panel lets you apply spot colors.
- D. The Color panel lets you change a fill color from CMYK to RGB.

Answer: B

QUESTION 6

You have linked to a folder with many PNG images. Then you resaved the images in the same folder as PSD and deleted the PNG images. What do you need to do in InDesign to ensure the document is updated properly?

- A. Deselect all objects in the Links panel and choose Utilities > Search for Missing Links from the panel menu.
- B. Select the images in the Links panel and choose Relink Filename Extension from the panel menu.
- C. Select the images in the Links panel and choose Relink to Folder from the panel menu.
- D. Select the images in the Links panel and choose Relink from the panel menu.
- E. InDesign updates the images properly when file names are the same and extensions change from .png to .psd.

Answer: DE
