

Vendor: Cisco

Exam Code: 642-591

Exam Name: Implementing Cisco NAC Appliance

Version: DEMO

QUESTION 1

The NAS is configured to autogenerate an IP address pool of 30 subnets with a netmask of /30, beginning at address 192.168.10.0. Which IP address is leased to the end-user host on the second subnet?

- A. 192.168.10.4
- B. 192.168.10.5
- C. 192.168.10.6
- D. 192.168.10.7

Answer: C

QUESTION 2

Which default administrator group has delete permissions?

- A. admin
- B. help-desk
- C. add-edit
- D. full-control

Answer: D

QUESTION 3

What is the result when the condition statement in a Cisco NAA check for required software evaluates to false on a client machine?

- A. The required software is automatically downloaded to the user device.
- B. The required software is made available after the user is quarantined.
- C. The user is put in the unauthenticated role and the software is considered missing.
- D. The user is placed in the temporary role and the software is made available.

Answer: B

QUESTION 4

Which three components comprise a Cisco NAC Appliance solution? (Choose three.)

- A. a NAC-enabled Cisco router
- B. a Linux server for in-band or out-of-band network admission control
- C. a Linux server for centralized management of network admission servers
- D. a Cisco router to provide VPN services
- E. a read-only client operating on an endpoint device
- F. a NAC-enabled Cisco switch

Answer: BCE

QUESTION 5

When configuring the Cisco NAM to implement Cisco NAA requirement checking on client machines, what is the next step after configuring checks and rules?

- A. retrieve updates
- B. require the use of the Cisco NAA
- C. configure session timeout and traffic policies
- D. map rules to requirement
- E. configure requirements

Answer: E

QUESTION 6

Refer to the exhibit. When logging in to a Cisco NAC Appliance solution, an end user is prompted for a username, password, and provider. What should be entered in the Provider drop-down field shown in the exhibit?

The image shows a web-based login interface for Cisco Clean Access Authentication. At the top, there is a Cisco Systems logo and the title "Cisco Clean Access Authentication". Below the title, there are three input fields: "Username", "Password", and "Provider". The "Provider" field is a drop-down menu. Below these fields is a "Continue" button. At the bottom of the form, there is a message: "Please provide your credentials to access this network." Below this message are three buttons: "Guest Access", "Install CA Cert", and "Help".

- A. the authenticating NAS
- B. the authorizing NAM
- C. the name of the ISP
- D. the external authenticating server

Answer: D

QUESTION 7
