QUESTION 8
How does HP HelionOpenStack provide customers with a business-ready version of OpenStack?

A. It provides HP support and indemnification against copyright disputes
B. It provides a full platform of developer tools, such as MySQL, and supports a variety of scripting languages.
C. It provides management of server, storage, and network hardware in an HP ConvergedSystem 700x
D. It provides drag and drop design for services and a catalog to which IT can publish the services

Answer: B

QUESTION 9
Your customer wants to focus on developing applications as quickly as possible. It therefore needs cloud services that provide virtual machines (VMs) with developer services, such as middleware and databases. Some applications might need to be deployed on the customer premises and others in a public cloud.

Which service and deployment model combination should you recommend?

A. SaaS in a managed cloud
B. PaaS in a managed cloud
C. PaaS in a hybrid cloud
D. IaaS in a hybrid cloud

Answer: C

QUESTION 10
What is an accurate description of cloud computing?

A. It allows customized software to run simultaneously on multiple servers, creating faster, more reliable services.
B. It enables users to seamlessly access a single physical server, in a secure environment.
C. It is a model that allows IT to consolidate and manage its data and infrastructure on a single, scalable platform.
D. It enables scalable, elastic IT capabilities to be delivered as on-demand, pay-per-use services over a secure network.

Answer: C

QUESTION 11
A mid-sized business is getting pressure from executives to implement cloud services and shift the company's budget toward operating expenditure (OPEX). Which statement correctly describes whether this customer is qualified for an HP Helion solution?

A. This customer is not qualified because HP Helion only provides solutions for very large-sized companies.
B. This customer is qualified only if they already have an HP Public Cloud Service.
C. This customer is not qualified because HP Helion requires that customers already have at least basic cloud service offerings.
D. This customer is qualified because HP Helion shifts IT focus from building infrastructure to providing line of business services.

Answer: B
