QUESTION 1
Which portal for Smart Account License consumption is valid?

A. Product Access Key (PAK)
B. Holding Account
C. CCW order
D. Customer Smart Account

Answer: D
Explanation:
Customer Smart Accounts are used to manage Webex licenses for a specific customer. They provide a centralized view of all Webex licenses assigned to a customer, as well as the ability to add, remove, and modify licenses. Customer Smart Accounts also allow customers to track their Webex usage and costs.

QUESTION 2
Which two statements about Cisco Webex Meetings are valid? (Choose two.)

A. Webex Meetings and Webex Teams use different cloud engines.
B. Webex limits meetings to 50 people.
C. End users have the same experience regardless of which device they choose.
D. Host and attendees can see up to 25 participants in one full-screen mode.
E. Webex Meetings provides only audio.

Answer: CD
Explanation:
Webex Meetings is designed to provide a consistent user experience across different devices, including desktops, laptops, tablets, and smartphones. Users can join meetings, collaborate with others, and access all meeting features regardless of the device they are using.
Additionally, Webex Meetings supports up to 25 participants in one full-screen mode, allowing for a more engaging and immersive meeting experience for both the host and attendees.

QUESTION 3
Which two endpoints allow for whiteboarding and annotating on the screen? (Choose two.)

A. DX 80
B. Cisco Meeting Server 2000
C. Cisco IP Phone
D. Cisco IP Conference Phone
E. Webex Board

Answer: AE
Explanation:
DX 80 is a high-end video conferencing endpoint that includes a built-in whiteboard. Users can draw, write, and annotate on the whiteboard using their fingers or a stylus. The whiteboard can be shared with other participants in the meeting, and it can also be saved and exported.
Webex Board is a digital whiteboard that is designed for collaboration. It has a large touchscreen display and a variety of annotation tools, such as pens, markers, and highlighters. Webex Board can be used to share ideas, brainstorm concepts, and give presentations. It can also be integrated with Webex Teams and other Webex collaboration tools.

QUESTION 4
Which two primary types of Smart Accounts are valid?

A. Webex Teams and Webex Licenses
B. Device licenses and resale agreements
C. Holding Smart Accounts and Customer Smart Accounts
D. Holding Smart Accounts and Try & Buy licenses

Answer: C
Explanation:
Smart Accounts are a Cisco licensing mechanism, and there are two primary types:
Holding Smart Accounts: These are accounts that hold entitlements and licenses but are not directly associated with a specific customer. They serve as a repository for licenses and entitlements.
Customer Smart Accounts: These are accounts associated with a specific customer and are used to manage licenses and entitlements for that customer.

QUESTION 5
Which role within an organization has the privilege to see all messages?

A. any user
B. Site Administrator
C. Device Administrator
D. Compliance officer role

Answer: D
Explanation:
Compliance officers typically have the privilege to see all messages within an organization in order to ensure compliance with company policies and regulations. They may also need to review messages for evidence of misconduct or other illegal activity.

QUESTION 6
Which action for Cisco Proximity is valid?

A. Pair to a nearby Cisco room device and wirelessly share content to the meeting
B. Pair to the room lighting system through infrared
C. Locate the attendees based on network IP address.
D. Determine which attendee would be the most effective presenter based on latency.

Answer: A
Explanation:
Cisco Proximity is a feature that allows users to wirelessly share content from their devices to nearby Cisco room devices. This can be done by simply pairing the device with the room device. Once paired, users can share their screen, applications, or whiteboards with the meeting participants.
