

Vendor: Microsoft

Exam Code: MB-700

Exam Name: Microsoft Dynamics 365: Finance and
Operations Apps Solution Architect

Version: DEMO

QUESTION 1

A company needs to create customer-facing documents in Dynamics 365 Finance.

The company does not have an in-house developer.

You need to determine a solution for creating the documents.

Which three tools should you recommend? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. SSRS reports
- B. Microsoft Excel
- C. Electronic reporting
- D. Microsoft Word
- E. Financial reports

Answer: BCD

QUESTION 2

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

A company with multiple legal entities implements Dynamics 365 Finance.

You need to recommend options to ensure that you can provide customized financial reporting across the legal entities.

Solution: Create separate business units.

Does the solution meet the goal?

- A. Yes
- B. No

Answer: A

Explanation:

<https://docs.microsoft.com/en-us/dynamics365/finance/general-ledger/generating-consolidated-financial-statements>

QUESTION 3

A local community college uses Microsoft SharePoint Online to track and manage laptop computers that are issued to faculty and other employees.

Information about all laptops must be visible in Asset Management for Dynamics 365 Supply Chain Management. Users must be able to issue new laptop computers to faculty and other employees directly from the system.

You need to recommend a solution for the college.

Which two actions should you recommend? Each correct answer provides a complete solution.

NOTE: Each correct selection is worth one point.

- A. Implement data management.
- B. Implement human resources.
- C. Embed PowerApps into the Employees form.
- D. Implement fixed assets.

Answer: BC

Explanation:

QUESTION 4

An organization is planning a new Dynamics 365 Finance + Operations (on-premises) implementation.

The business process demands a huge volume of transactions to be imported during peak hours. Users can always access the system.

You need to do proper hardware sizing to ensure expected performance.

Which two factors should be considered for sizing? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. user profile management
- B. business process optimization
- C. deadlock log evaluation
- D. crash dump analysis
- E. transaction characterization

Answer: BE

QUESTION 5

Drag and Drop Question

You need to determine user licensing options for Dynamics 365 Finance + Operations (on-premises).

Which type of license should you recommend? To answer, drag the appropriate licenses to the correct users. Each license may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Licenses

-
-
-
-

Answer Area

	User	License
Warehouse employee using scanners to count inventory		<input type="text" value="License"/>
Company controller		<input type="text" value="License"/>
Worker entering expenses only		<input type="text" value="License"/>

Answer:

Licenses

-

Answer Area

	User	License
Warehouse employee using scanners to count inventory		<input type="text" value="Device user"/>
Company controller		<input type="text" value="Enterprise user"/>
Worker entering expenses only		<input type="text" value="Team member"/>

QUESTION 6

Drag and Drop Question

A winery is considering using Dynamics 365 Finance to implement a large-scale ERP application and needs to understand the differences between cloud-based and on-premises deployments.

You need to recommend deployment options for the company.

What should you recommend? To answer, drag the appropriate deployment types to the correct features. Each deployment type may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Deployment types

-
-
-

Answer Area

	Feature	Deployment type
General journals		<input type="text" value="Deployment type"/>
Sales orders		<input type="text" value="Deployment type"/>
Lifecycle Services monitoring		<input type="text" value="Deployment type"/>
Document Routing Agent		<input type="text" value="Deployment type"/>

Answer:

Deployment types

-
-
-

Answer Area

	Feature	Deployment type
General journals		<input type="text" value="Both cloud and on-premises"/>
Sales orders		<input type="text" value="Both cloud and on-premises"/>
Lifecycle Services monitoring		<input type="text" value="Both cloud and on-premises"/>
Document Routing Agent		<input type="text" value="Cloud only"/>
