

Vendor: Fortinet

Exam Code: NSE5_EDR-5.0

Exam Name: Fortinet NSE 5 - FortiEDR 5.0

Version: DEMO

QUESTION 1

What is the purpose of the Threat Hunting feature?

- A. Delete any file from any collector in the organization
- B. Find and delete all instances of a known malicious file or hash in the organization
- C. Identify all instances of a known malicious file or hash and notify affected users
- D. Execute playbooks to isolate affected collectors in the organization

Answer: B

Explanation:

Threat hunting allows management console users to find and remediate dormant threats before they execute. Essentially it's a search and destroy operation.

QUESTION 2

An administrator needs to restrict access to the ADMINISTRATION tab in the central manager for a specific account.

What role should the administrator assign to this account?

- A. Admin
- B. User
- C. Local Admin
- D. REST API

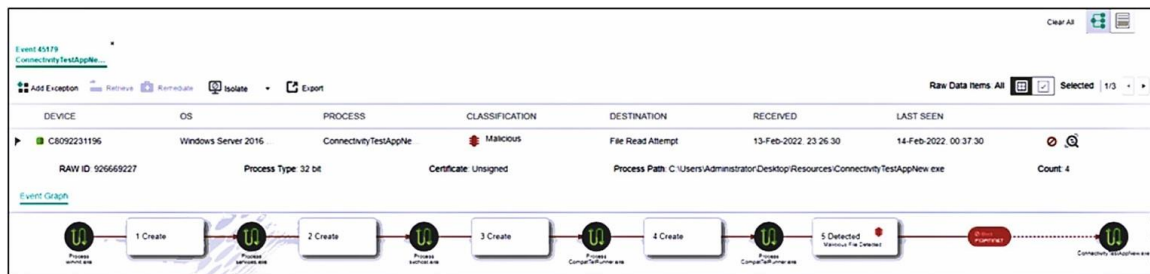

Answer: B

Explanation:

User: can view and edit all information in all tabs except ADMINISTRATION.

QUESTION 3

Based on the forensics data shown in the exhibit, which two statements are true? (Choose two.)

- A. The device cannot be remediated.
- B. The execution prevention policy has blocked this event.
- C. The event was blocked because the certificate is unsigned.
- D. Device C8092231196 has been isolated.

Answer: AB

QUESTION 4

A company requires a global communication policy for a FortiEDR multi-tenant environment. How can the administrator achieve this?

- A. An administrator creates a new communication control policy and shares it with other organizations.
- B. A local administrator creates a new communication control policy and shares it with other organizations.
- C. An administrator creates a new communication control policy for each organization.
- D. A local administrator creates a new communication control policy and assigns it globally to all organizations.

Answer: C

Explanation:

<https://docs.fortinet.com/document/fortiedr/5.2.1/administration-guide/967281/communication-control>

QUESTION 5
