

Vendor: Huawei

Exam Code: H13-811_V3.0

Exam Name: HCIA-Cloud Service V3.0

Version: DEMO

QUESTION 1

Which of the following description about the ELB configuration is incorrect?

- A. You can choose to keep the session when you configure the listener
- B. You can configure the monitoring strategy when creating the listener
- C. Select IP when adding elastic load balancer
- D. Configurable health check timeout

Answer: C

QUESTION 2

When IPSec VPN is used for communication, encryption and decryption verification is performed on the firewalls at both ends.

- A. True
- B. False

Answer: A

QUESTION 3

The access control strategy is one of the security protection components provided by the API gateway.

- A. True
- B. False

Answer: A

QUESTION 4

Which of the following functions does RDS provide? (Multiple Choice)

- A. Users can set relational database alarm rules
- B. Users can set automatic backup strategies, create manual backups, and use backups to restore database instances
- C. Cloud DBA can help you conduct a comprehensive analysis of the instance, which reflects the performance and operating status of the database instance. Through cloud DBA diagnosis and diagnosis opinions, you can find the existing or potential health problems in the database to the greatest extent, and deal with them in time
- D. Users can create, delete database instances, modify database port numbers

Answer: ABCD

QUESTION 5

The default backup strategy of cloud hard disk cannot be deleted.

- A. True
- B. False

Answer: B

QUESTION 6

After the elastic cloud server is successfully created, once the bandwidth used is determined, it cannot be modified.

- A. True
- B. False

Answer: B

QUESTION 7

Installing the Cloud base-init tool before creating a private image is to ensure that the new cloud server created with the private image can be customized.

- A. True
- B. False

Answer: A

QUESTION 8

Compared with traditional cloud file sharing and storage, what advantages does SFS have? (Multiple Choice)

- A. File sharing
- B. High reliability
- C. Seamless integration
- D. Simple operation but high cost

Answer: ABC

QUESTION 9

Which of the following components is not a component of the big data platform?

- A. MapReduce
- B. Yarn
- C. Open Stack
- D. HDFS

Answer: C

QUESTION 10

Multiple elastic cloud servers can share a key pair.

- A. True
- B. False

Answer: A

QUESTION 11

Users cannot deploy business applications on elastic cloud servers arbitrarily like using traditional servers.

- A. True
- B. False

Answer: B

QUESTION 12

Which of the following operations cannot be performed in the RDS backup strategy?

- A. Turn off automatic backup
- B. Set to incremental backup
- C. Set the backup cycle
- D. Set the number of days to keep backups

Answer: B

QUESTION 13

In the cloud monitoring service, what are the alarm statuses? (Multiple Choice)

- A. Normal
- B. Alarm
- C. Close
- D. Insufficient data

Answer: ABD

QUESTION 14

Which of the following are the basic characteristics of cloud computing? (Multiple Choice)

- A. On-demand self-service
- B. Fast elastic scaling
- C. Resource pooling
- D. Broad network access

Answer: ABCD

QUESTION 15

The management console can be used without logging in.

- A. True
- B. False

Answer: B

QUESTION 16

When the shared cloud hard disk is mounted to multiple cloud servers, the file sharing function cannot be realized until the operating system has not built a shared file system or similar cluster management system.

- A. True
- B. False

Answer: A

QUESTION 17

Regarding the scaling configuration, which of the following is correct?

- A. You can create an unlimited number of scaling configurations.
- B. The scaling configuration defines the specification data of the cloud server to be added in the scaling group.
- C. You can modify the created scaling configuration as needed.
- D. After the scaling group is enabled, the scaling configuration cannot be changed.

Answer: B

QUESTION 18

How many layers of protection does a web application firewall provide?

- A. Seventh layers
- B. Five layers
- C. First layers
- D. Three layers

Answer: A

QUESTION 19

Regarding the description of the health check, which ones are correct? (Multiple Choice)

- A. The protocol of the check path supports HTTPS
- B. When the number of failures exceeds the unhealthy threshold, the service is considered unavailable
- C. If no reply is received within the timeout period, it is considered a failure
- D. When the number of failures exceeds the health threshold, the service is considered unavailable

Answer: BCD

QUESTION 20

The API gateway service currently supports API integration and API openness of the entire HUAWEI CLOUD.

- A. True
- B. False

Answer: A

QUESTION 21

Which parameters should be selected or set when copying images across regions? (Multiple Choice)

- A. IAM commission
- B. Purpose Project
- C. Destination Availability Zone
- D. Destination area

Answer: ABCD

QUESTION 22

Which of the following database instance types are available for relational database services? (Multiple Choice)

- A. Active and standby instances
- B. Financial version example
- C. Write only examples
- D. Single instance

Answer: ABCD

QUESTION 23

Elastic scaling service is a service that automatically adjusts its business resources through strategies according to the user's business needs.

- A. True
- B. False

Answer: A

QUESTION 24

Which of the following are the functions of relational database services? (Multiple Choice)

- A. Create a database cluster
- B. Expand the disk
- C. Restore the backup to the specified time node
- D. Add a read-only replica

Answer: ABCD

QUESTION 25

Multiple elastic cloud servers cannot use the same RDS database.

- A. True
- B. False

Answer: B

QUESTION 26

Which of the following conditions must be met before API release? (Multiple Choice)

- A. Created environment
- B. Created the API group and the APIs in the group
- C. Created access control policy
- D. Created signing key

Answer: ABCD

QUESTION 27

Regarding the process of opening a virtual private network, which of the following description is incorrect?

- A. After purchasing a VPN connection, users do not need to configure an IPSec VPN tunnel on the router or firewall of their own data center
- B. The user needs to plan the VPC and its subnet that the local data center needs to connect to
- C. After purchasing a VPN gateway and a VPN connection, users need to configure the security group rules of the VPC
- D. Users need to purchase a VPN gateway before purchasing a VPN connection

Answer: A

QUESTION 28

What service is Cloud Table based on?

- A. HDFS
- B. OBS
- C. MySQL
- D. HBase

Answer: D

QUESTION 29

When external traffic enters the Loadbalancer, which component does it enter first?

- A. Linux Virtual Server
- B. nginx
- C. HealthCheck (health check)
- D. Firewall

Answer: A

QUESTION 30

Elastic load balancing automatically distributes access traffic to multiple cloud servers, expands

the external service capabilities of the application system, and achieves a higher level of application fault tolerance.

- A. True
- B. False

Answer: A

QUESTION 31

VBD type cloud hard disk supports transparent transmission of SCSI commands, allowing the cloud server operating system to directly access the underlying storage medium.

- A. True
- B. False

Answer: B

QUESTION 32

The file system can be accessed across VPC.

- A. True
- B. False

Answer: B

QUESTION 33

What status does the API gateway monitor API? (Multiple Choice)

- A. Number of requests
- B. Number of errors
- C. System resources
- D. Call delay

Answer: ABD

QUESTION 34

What are the VPC access rights control? (Multiple Choice)

- A. Fingerprint
- B. Password
- C. Network ACL
- D. Security Group

Answer: CD

Thank You for Trying Our Product

Lead2pass Certification Exam Features:

- ★ More than **99,900** Satisfied Customers Worldwide.
- ★ Average **99.9%** Success Rate.
- ★ **Free Update** to match latest and real exam scenarios.
- ★ **Instant Download** Access! No Setup required.
- ★ Questions & Answers are downloadable in **PDF** format and **VCE** test engine format.
- ★ Multi-Platform capabilities - **Windows, Laptop, Mac, Android, iPhone, iPod, iPad**.
- ★ **100%** Guaranteed Success or **100%** Money Back Guarantee.
- ★ **Fast**, helpful support **24x7**.
