Vendor: Fortinet

Exam Code: FCP_FGT_AD-7.6

Exam Name: FCP - FortiGate 7.6 Administrator

Version: DEMO

QUESTION 1
What is the primary FortiGate election process when the HA override setting is enabled?

A. Connected monitored ports > Priority > HA uptime > FortiGate serial number
B. Connected monitored ports > Priority > System uptime > FortiGate serial number
C. Connected monitored ports > HA uptime > Priority > FortiGate serial number
D. Connected monitored ports > System uptime > Priority > FortiGate serial number

Answer: A
Explanation:
When HA override is enabled, FortiGate uses the following election order: number of connected monitored ports, then device priority, followed by HA uptime, and finally FortiGate serial number as a tiebreaker.

QUESTION 2
An administrator wanted to configure an IPS sensor to block traffic that triggers a signature set number of times during a specific time period.
How can the administrator achieve the objective?

A. Use IPS group signatures, set rate-mode 60.
B. Use IPS packet logging option with periodical filter option.
C. Use IPS filter, rate-mode periodical option.
D. Use IPS filter, rate-mode periodical option.

Answer: C
Explanation:
The IPS filter with the rate-mode set to "periodical" allows the administrator to block traffic that triggers a signature a specified number of times within a defined time period, meeting the requirement.

QUESTION 3
A FortiGate firewall policy is configured with active authentication, however, the user cannot authenticate when accessing a website.
Which protocol must FortiGate allow even though the user cannot authenticate?

A. LDAP
B. TACASC+
C. Kerberos
D. DNS

Answer: D
Explanation:
DNS traffic must be allowed so the user can resolve domain names and reach the authentication server or web resources, even if authentication initially fails.

QUESTION 4
Refer to the exhibit, which shows a partial configuration from the remote authentication server.

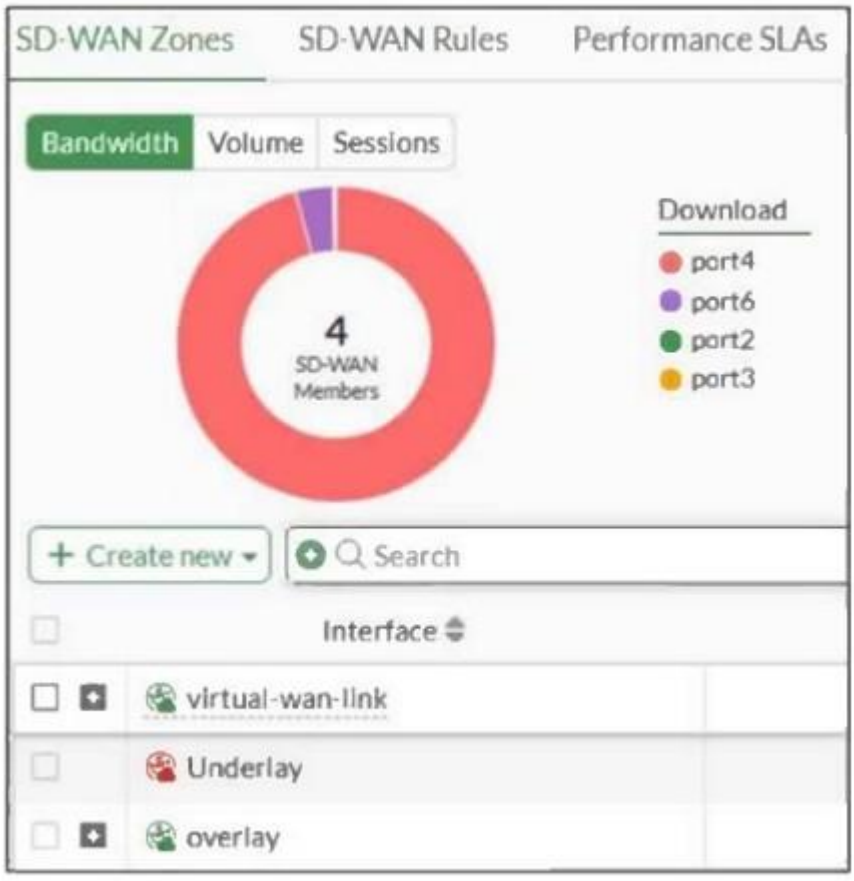
Attribute	Value	Vendor	Actions
Fortinet-Group-Name	Training	Fortinet	

Why does the FortiGate administrator need this configuration?

A. To set up a RADIUS server Secret.
B. To authenticate Any FortiGate user groups.
C. To authenticate and match the Training OU on the RADIUS server.
D. To authenticate only the Training user group.

Answer: D
Explanation:
The Fortinet-Group-Name attribute is used to restrict authentication to users who belong specifically to the "Training" user group on the RADIUS server.

QUESTION 5
Refer to the exhibit, which shows an SD-WAN zone configuration on the FortiGate GUI.



Based on the exhibit, which statement is true?

A. The Underlay zone is the zone by default.
B. The Underlay zone contains no member.
C. port2 and port3 are not assigned to a zone.
D. The virtual-wan-link and overlay zones can be deleted.

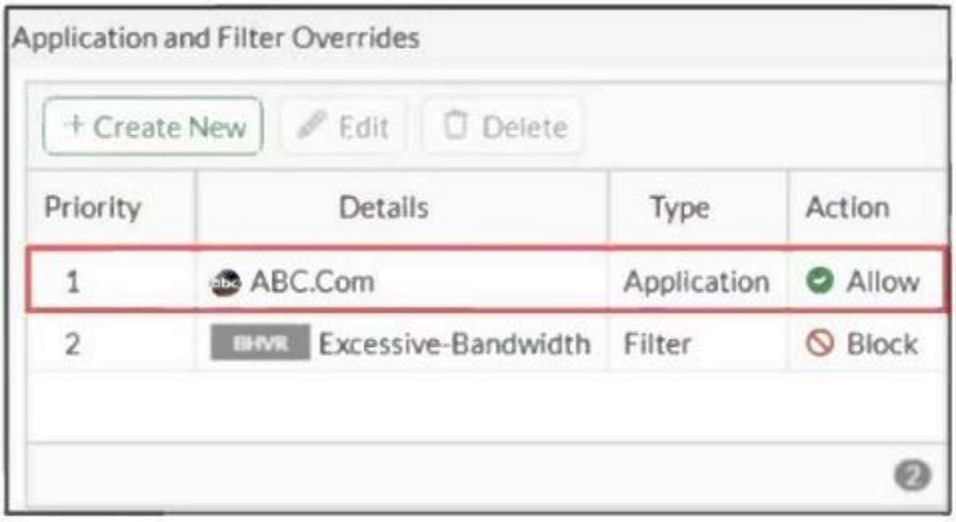
Answer: A
Explanation:
The Underlay zone is the default SD-WAN zone, typically representing the physical interfaces in the SD-WAN configuration before overlay or virtual links are added.

QUESTION 6
Which three statements explain a flow-based antivirus profile? (Choose three.)

A. FortiGate buffers the whole file but transmits to the client at the same time.
B. Flow-based inspection uses a hybrid of the scanning modes available in proxy-based inspection.
C. If a virus is detected, the last packet is delivered to the client.
D. Flow-based inspection optimizes performance compared to proxy-based inspection.
E. The IPS engine handles the process as a standalone.

Answer: ABD
Explanation:
Flow-based antivirus buffers the entire file while simultaneously transmitting data to the client to minimize latency.
Flow-based inspection combines multiple scanning techniques from proxy-based modes for efficient detection.
Flow-based inspection provides better performance by processing traffic on the fly without full proxy overhead.

QUESTION 7
Refer to the exhibit. An administrator has configured an Application Overrides for the ABC.Com application signature and set the Action to Allow. This application control profile is then applied to a firewall policy that is scanning all outbound traffic. Logging is enabled in the firewall policy. To test the configuration, the administrator accessed the ABC.Com web site several times.



Why are there no logs generated under security logs for ABC.Com?

A. The ABC.Com Type is set as Application instead of Filter.
B. The ABC.Com is configured under application profile, which must be configured as a web filter profile.
C. The ABC.Com Action is set to Allow.
D. The ABC.Com is hitting the category Excessive-Bandwidth.

Answer: C
Explanation:
When the action is set to Allow in an application override, traffic matching this override is allowed without generating security logs because it bypasses deeper inspection and blocking.

QUESTION 8
Which two statements describe characteristics of automation stitches? (Choose two.)

A. Actions involve only devices included in the Security Fabric.
B. An automation stitch can have multiple triggers.
C. Multiple actions can run in parallel.
D. Triggers can involve external connectors.

Answer: CD
Explanation:
Automation stitches can execute multiple actions concurrently (in parallel). Triggers for automation stitches can come from external connectors beyond just Fortinet devices.

QUESTION 9
Which three statements about SD-WAN performance SLAs are true? (Choose three.)

A. They rely on session loss and jitter.
B. They can be measured actively or passively.
C. They are applied in a SD-WAN rule lowest cost strategy.
D. They monitor the state of the FortiGate device.
E. All the SLAtargets can be configured.

Answer: ABE
Explanation:
SD-WAN SLAs monitor metrics like packet loss and jitter to evaluate link performance. SLA measurements can be performed using active probing or passive monitoring. Administrators can configure all SLA target parameters to define performance criteria.

Thank You for Trying Our Product

Lead2pass Certification Exam Features:

★ More than **99,900** Satisfied Customers Worldwide.

★ Average **99.9%** Success Rate.

★ **Free Update** to match latest and real exam scenarios.

★ **Instant Download** Access! No Setup required.

★ Questions & Answers are downloadable in **PDF** format and **VCE** test engine format.

★ Multi-Platform capabilities - **Windows, Laptop, Mac, Android, iPhone, iPod, iPad**.

★ **100%** Guaranteed Success or **100%** Money Back Guarantee.

★ **Fast**, helpful support **24x7**.
