Your network contains an Active Directory domain. The domain contains 1,000 computers that run Windows 10. You discover a known compatibility issue between a feature update and a device driver on the computers. You need to test the installation of the feature update on a test computer. Which Windows Update setting should you configure by using a Group Policy Object (GPO)?

- A. Automatic Updates detection frequency
- B. Disable safeguards for Feature Updates
- C. Select the target Feature Update version
- D. Reschedule Automatic Updates scheduled installations

Answer: B**Explanation:**<https://docs.microsoft.com/en-us/windows/deployment/update/safeguard-opt-out>**QUESTION 257**

Your network contains an Active Directory domain. The domain contains 500 computers that run Windows 10. The computers are used as shown in the following table.

| Usage | Update note |
|-----------------------------|---------------------------------------------------------------------------------------------------|
| Manufacturing | Critical computers that must have minimal downtime: Updates must be deferred as long as possible. |
| Information technology (IT) | Computers for IT staff: Updates must be installed as soon as they are released. |
| Administration | Computers for general use: Updates must be installed two months after they are released. |

You need to apply updates based on the computer usage. What should you configure?

- A. Notifications & actions from System in the Settings apps.
- B. the Windows Update for Business settings by using a Group Policy Object (GPO)
- C. the Windows Installer settings by using a Group Policy Object (GPO)
- D. Delivery Optimization from Update & Security in the Settings apps

Answer: B**Explanation:**<https://docs.microsoft.com/en-us/windows/deployment/update/waas-wufb-group-policy>**[MD-100 Exam Dumps](#) [MD-100 Exam Questions](#) [MD-100 PDF Dumps](#) [MD-100 VCE Dumps](#)****<https://www.braindump2go.com/md-100.html>**

QUESTION 258

Hotspot Question

You have the computers shown in the following table.

| Name | Windows 10 edition |
|-----------|-----------------------------|
| Computer1 | Windows 10 Pro |
| Computer2 | Windows 10 Pro Workstations |
| Computer3 | Windows 10 Enterprise |

You need to identify which computers support the features.

- BitLocker Drive Encryption (BitLocker)
- Microsoft Application Virtualization (App-V)

Which computers support the features? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

BitLocker:

▼

| |
|-------------------------------------|
| Computer1 only |
| Computer2 only |
| Computer3 only |
| Computer1 and Computer3 only |
| Computer2 and Computer3 only |
| Computer1, Computer2, and Computer3 |

App-V:

▼

| |
|-------------------------------------|
| Computer1 only |
| Computer2 only |
| Computer3 only |
| Computer1 and Computer3 only |
| Computer2 and Computer3 only |
| Computer1, Computer2, and Computer3 |

Answer:

BitLocker:

Computer1 only
Computer2 only
Computer3 only
Computer1 and Computer3 only
Computer2 and Computer3 only
Computer1, Computer2, and Computer3

App-V:

Computer1 only
Computer2 only
Computer3 only
Computer1 and Computer3 only
Computer2 and Computer3 only
Computer1, Computer2, and Computer3

Explanation:

<https://www.microsoft.com/en-us/windowsforbusiness/compare>

QUESTION 259

Drag and Drop Question

Your network contains an Active Directory domain. The domain contains 100 computers that run Windows 10.

You need to create a Start menu layout file. The solution must meet the following requirements:

- Contain an app group named Contoso Apps that has several pinned items.
- Contoso Apps must be locked from user modification.
- Ensure that users can customize other parts of the Start screen.
- Minimize administrative effort.

Which four actions should you perform in sequence? To answer, move the appropriate commands from the list of commands to the answer area and arrange them in the correct order.

Actions

Deploy the start layout.
Modify the StartLayoutCollection XML element.
Modify the DefaultLayoutOverride XML element.
Export the start layout to a file.
On a reference computer, customize the Start menu.

Answer Area**Answer:**

Actions

Modify the StartLayoutCollection XML element.

Answer Area

Deploy the start layout.

On a reference computer, customize the Start menu.

Export the start layout to a file.

Modify the DefaultLayoutOverride XML element.

Explanation:

<https://docs.microsoft.com/en-us/windows/configuration/customize-and-export-start-layout>

QUESTION 260

Hotspot Question

You have computers that run Windows 10 Enterprise as shown in the following table.

| Name | Servicing channel |
|-----------|-----------------------------------------|
| Computer1 | Semi-Annual Channel (SAC) |
| Computer2 | Long-Term Servicing Channel (LTSC) 2016 |

Both computers have applications installed and contain user data.

You plan to configure both computers to run Windows 10 Enterprise LTSC 2019 and to retain all the existing applications and data.

You need to recommend a method to deploy Windows 10 Enterprise LTSC 2019 to the computers. The solution must minimize effort to install and configure the applications.

What should you include in the recommendation for each computer? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Computer1:

Perform a clean installation.

Perform an in-place upgrade.

Update the product key.

Computer2:

Perform a clean installation.

Perform an in-place upgrade.

Update the product key.

Answer:

Computer1:

| |
|-------------------------------|
| Perform a clean installation. |
| Perform an in-place upgrade. |
| Update the product key. |

Computer2:

| |
|-------------------------------|
| Perform a clean installation. |
| Perform an in-place upgrade. |
| Update the product key. |

Explanation:

<https://docs.microsoft.com/en-us/windows/deployment/upgrade/windows-10-upgrade-paths>

QUESTION 261**Hotspot Question**

You plan to deploy Windows 10 Enterprise to company-owned devices.

You capture a Windows 10 image file from a reference device.

You need to generate catalog files and answer files for the deployment.

What should you use for each file? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Catalog file:

| |
|--------------------------------------------------|
| Deployment Image Servicing and Management (DISM) |
| Windows Configuration Designer |
| Windows Deployment Services (WDS) |
| Windows System Image Manager (Windows SIM) |

Answer file:

| |
|--------------------------------------------------|
| Deployment Image Servicing and Management (DISM) |
| Windows Configuration Designer |
| Windows Deployment Services (WDS) |
| Windows System Image Manager (Windows SIM) |

Answer:

Catalog file:

| |
|--------------------------------------------------|
| Deployment Image Servicing and Management (DISM) |
| Windows Configuration Designer |
| Windows Deployment Services (WDS) |
| Windows System Image Manager (Windows SIM) |

Answer file:

| |
|--------------------------------------------------|
| Deployment Image Servicing and Management (DISM) |
| Windows Configuration Designer |
| Windows Deployment Services (WDS) |
| Windows System Image Manager (Windows SIM) |

Explanation:

<https://docs.microsoft.com/en-us/windows-hardware/customize/desktop/wsim/open-a-windows-image-or-catalog-file>

QUESTION 262

Hotspot Question

You have two workgroup computers named Computer1 and Computer2 that run Windows 10. The computers contain the local security principals shown in the following table.

| Name | Type | Computer |
|--------|-------|-----------|
| User1 | User | Computer1 |
| GroupA | Group | Computer1 |
| GroupB | Group | Computer1 |
| User2 | User | Computer2 |
| GroupC | Group | Computer2 |

Which security principals can be members of GroupA and GroupC? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

GroupA:

| |
|----------------------------------|
| User1 only |
| User1 and User2 only |
| User1 and GroupB only |
| User1, User2, GroupB, and GroupC |

GroupC:

| |
|----------------------------------|
| User2 only |
| User1 and User2 only |
| User1, User2, GroupA, and GroupB |

Answer:

GroupA:

| |
|----------------------------------|
| User1 only |
| User1 and User2 only |
| User1 and GroupB only |
| User1, User2, GroupB, and GroupC |

GroupC:

| |
|----------------------------------|
| User2 only |
| User1 and User2 only |
| User1, User2, GroupA, and GroupB |

QUESTION 263

Hotspot Question

Your network contains an Active Directory domain. The domain contains three computers named Computer1, Computer2, and Computer3 that run Windows 10. The computers are on the same network and have network connectivity.

Windows Defender Firewall on Computer1 has the server-to-server connection security rule shown in the following table.

| Name | Endpoint 1 | Endpoint 2 | Authentication mode |
|-------|------------|------------|--------------------------------------|
| Rule1 | Any | Any | Require inbound and request outbound |

Windows Defender Firewall on Computer2 has the server-to-server connection security rule shown in the following table.

| Name | Endpoint 1 | Endpoint 2 | Authentication mode |
|-------|------------|------------|---------------------|
| Rule1 | Any | Any | Do not authenticate |

[MD-100 Exam Dumps](#)
[MD-100 Exam Questions](#)
[MD-100 PDF Dumps](#)
[MD-100 VCE Dumps](#)

<https://www.braindump2go.com/md-100.html>

Windows Defender Firewall on Computer3 has the server-to-server connection security rule shown in the following table.

| Name | Endpoint 1 | Endpoint 2 | Authentication mode |
|-------|------------|------------|--------------------------------------|
| Rule1 | Any | Any | Require inbound and request outbound |

All the connection security rules are enabled and configured to use only the Computer (Kerberos VS) authentication method.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

| Statements | Yes | No |
|---------------------------------------------------------------------------------------|-----------------------|-----------------------|
| If Computer1 initiates communication to Computer2, network traffic will be encrypted. | <input type="radio"/> | <input type="radio"/> |
| Computer2 can establish communications to Computer3. | <input type="radio"/> | <input type="radio"/> |
| If Computer3 initiates communication to Computer1, network traffic will be encrypted. | <input type="radio"/> | <input type="radio"/> |

Answer:

| Statements | Yes | No |
|---------------------------------------------------------------------------------------|----------------------------------|----------------------------------|
| If Computer1 initiates communication to Computer2, network traffic will be encrypted. | <input type="radio"/> | <input checked="" type="radio"/> |
| Computer2 can establish communications to Computer3. | <input type="radio"/> | <input checked="" type="radio"/> |
| If Computer3 initiates communication to Computer1, network traffic will be encrypted. | <input checked="" type="radio"/> | <input type="radio"/> |

Explanation:

<https://docs.microsoft.com/en-us/windows/security/threat-protection/windows-firewall/create-an-authentication-request-rule>

QUESTION 264

Hotspot Question

You have a workgroup computer named Computer1 that runs Windows 10 and has the users shown in the following table.

| Name | Member of |
|-------|-----------------------|
| User1 | Users |
| User2 | Users, Administrators |

Computer1 contains an image file named C:\Folder\Image.jpg.

Computer1 has the Local Computer\Administrators Policy shown in the following table.

| Setting | State |
|--------------------------------------|----------------|
| Remove Recycle Bin icon from desktop | Not configured |
| Desktop Wallpaper | Disabled |

Computer1 has the Local Computer\Non-Administrators Policy shown in the following table.

| Setting | State | Path |
|--------------------------------------|---------|---------------------|
| Remove Recycle Bin icon from desktop | Enabled | Not applicable |
| Desktop Wallpaper | Enabled | C:\Folder\Image.jpg |

Computer1 has the local computer policy shown in the following table.

[MD-100 Exam Dumps](#) [MD-100 Exam Questions](#) [MD-100 PDF Dumps](#) [MD-100 VCE Dumps](#)

<https://www.braindump2go.com/md-100.html>

| Setting | State |
|--------------------------------------|----------------|
| Remove Recycle Bin icon from desktop | Disabled |
| Desktop Wallpaper | Not configured |

For each of the following statements, select Yes if the statement is true. Otherwise, select No.
 NOTE: Each correct selection is worth one point.

| Statements | Yes | No |
|-------------------------------------------|-----------------------|-----------------------|
| User1 can change the desktop wallpaper. | <input type="radio"/> | <input type="radio"/> |
| User2 has the Recycle Bin on the desktop. | <input type="radio"/> | <input type="radio"/> |
| User1 has the Recycle Bin on the desktop. | <input type="radio"/> | <input type="radio"/> |

Answer:

| Statements | Yes | No |
|-------------------------------------------|----------------------------------|----------------------------------|
| User1 can change the desktop wallpaper. | <input type="radio"/> | <input checked="" type="radio"/> |
| User2 has the Recycle Bin on the desktop. | <input checked="" type="radio"/> | <input type="radio"/> |
| User1 has the Recycle Bin on the desktop. | <input type="radio"/> | <input checked="" type="radio"/> |

QUESTION 265

Hotspot Question

You have a computer named Computer1 that runs Windows 10.

You need to modify the Security Settings of Computer1 to meet the following requirements:

A local group named Branch_Admns must be able to view and clear the Security log. Local users must be prompted to change their password three days before the password expires.

Which two nodes of the Local Group Policy Editor should you access to configure the settings? To answer, select the appropriate nodes in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

User Rights Assignment > Manage auditing and security log. Security Options > Interactive Logon: Prompt user to change password before expiration: 3 days.

QUESTION 266

Hotspot Question

You have a computer that runs Windows 10. The computer contains two local user accounts named User1 and User2. User2 is a member of the local Administrators group. User1 performs the actions shown in the following table.

| Time | Name | Action |
|----------|-------------------------------------|----------------|
| 9:00 AM | C:\Users\User1\Documents\File1.docx | Create a file. |
| 9:01 AM | D:\Folder1\File2.txt | Create a file. |
| 10:10 AM | C:\Users\User1\Documents\File1.docx | Save the file. |
| 10:14 AM | D:\Folder1\File2.txt | Save the file. |
| 10:19 AM | D:\Folder1\File2.txt | Save the file. |
| 10:25 AM | D:\Folder1\File2.txt | Save the file. |

User2 performs the actions shown in the following table.

| Time | Action |
|----------|-------------------------------------------------------------------------------------------|
| 9:49 AM | Sign in. |
| 9:50 AM | Add D:\Folder1 to the Documents library. |
| 10:00 AM | Turn on File History and configure File History to save copies of files every 20 minutes. |
| 10:05 AM | Create a restore point. |
| 10:06 AM | Sign out. |

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

| Statements | Yes | No |
|-----------------------------------------------------------------------------------------------------|-----------------------|-----------------------|
| User1 can use File History to restore File1.docx to the contents contained in the file at 10:05 AM. | <input type="radio"/> | <input type="radio"/> |
| User1 can use File History to restore File2.txt to the contents contained in the file at 10:15 AM. | <input type="radio"/> | <input type="radio"/> |
| User1 can use File History to restore File2.txt to the contents contained in the file at 10:20 AM. | <input type="radio"/> | <input type="radio"/> |

Answer:

| Statements | Yes | No |
|-----------------------------------------------------------------------------------------------------|-----------------------|----------------------------------|
| User1 can use File History to restore File1.docx to the contents contained in the file at 10:05 AM. | <input type="radio"/> | <input checked="" type="radio"/> |
| User1 can use File History to restore File2.txt to the contents contained in the file at 10:15 AM. | <input type="radio"/> | <input checked="" type="radio"/> |
| User1 can use File History to restore File2.txt to the contents contained in the file at 10:20 AM. | <input type="radio"/> | <input checked="" type="radio"/> |

QUESTION 267

Hotspot Question

You have the computers shown in the following table.

| Name | Windows 10 edition | Servicing channel |
|-----------|-----------------------|-------------------|
| Computer1 | Windows 10 Education | Semi-annual |
| Computer2 | Windows 10 Pro | Semi-annual |
| Computer3 | Windows 10 Enterprise | Semi-annual |

You apply the 20H2 feature update as soon as the update is available.

How many months of servicing does each computer support without installing another feature update? To answer,

[MD-100 Exam Dumps](#) [MD-100 Exam Questions](#) [MD-100 PDF Dumps](#) [MD-100 VCE Dumps](#)

<https://www.braindump2go.com/md-100.html>

select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.

Computer1:

| |
|-----------|
| 6 months |
| 12 months |
| 18 months |
| 30 months |

Computer2:

| |
|-----------|
| 6 months |
| 12 months |
| 18 months |
| 30 months |

Computer3:

| |
|-----------|
| 6 months |
| 12 months |
| 18 months |
| 30 months |

Answer:

Computer1:

Computer2:

Computer3:

Explanation:

<https://docs.microsoft.com/en-us/windows/deployment/update/get-started-updates-channels-tools>

QUESTION 268

Hotspot Question

You have the computer shown in the following table.

| Name | Windows 10 edition | Servicing channel |
|-----------|-----------------------|----------------------|
| Computer1 | Windows 10 Pro | Preview Build - Fast |
| Computer2 | Windows 10 Pro | Semi-annual |
| Computer3 | Windows 10 Enterprise | Long-term |

You plan to configure deployment rings for Windows 10 quality and feature updates.

What is the maximum number of days you can defer installing quality updates, and which computers support installing feature updates from Windows Update? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Maximum number of days you can defer
installing quality updates:

| |
|----------|
| ▼ |
| 7 days |
| 30 days |
| 180 days |
| 365 days |

Computers that support installing feature
updates from Windows Update:

| |
|-------------------------------------|
| ▼ |
| Computer1 only |
| Computer2 only |
| Computer3 only |
| Computer1 and Computer2 only |
| Computer1, Computer2, and Computer3 |

Answer:

Maximum number of days you can defer
installing quality updates:

| |
|----------|
| ▼ |
| 7 days |
| 30 days |
| 180 days |
| 365 days |

Computers that support installing feature
updates from Windows Update:

| |
|-------------------------------------|
| ▼ |
| Computer1 only |

| Computer3 only |
| Computer1 and Computer2 only |
| Computer1, Computer2, and Computer3 |

Explanation:

<https://docs.microsoft.com/en-us/windows/deployment/update/waas-configure-wufb>

QUESTION 269

When signing in to a web application, your users are asked whether they want to store their password. You identify that their password will be stored for future use in Credential Manager on their PCs. Which of the following statements about Credential Manager is not true?

- A. It saves the credentials entered by users when accessing other computers and resources on local networks
- B. Credential Manager is disabled by default on non-domain joined computers
- C. It can be used to back up and restore these credentials
- D. It is built into the Windows 10 Control Panel

Answer: B

QUESTION 270

If your organization recently upgraded to Windows 10 from Windows 8.1 and you want to use a familiar wizard-driven tool to configure wired and wireless connections, which tool should you use?

- A. Network & Internet
- B. Network and Sharing Center
- C. Network Setup Wizard
- D. Windows PowerShell

[MD-100 Exam Dumps](#) [MD-100 Exam Questions](#) [MD-100 PDF Dumps](#) [MD-100 VCE Dumps](#)

<https://www.braindump2go.com/md-100.html>

Answer: B

QUESTION 271

A user has a computer that runs Windows 10. The user has access to the following storage locations:

- A USB flash drive
- Microsoft OneDrive OneDrive for Business
- A drive mapped to a network share
- A secondary partition on the system drive

You need to configure Back up using File History from the Settings app.

Which two storage locations can you select by using File History?

Each correct answer presents a complete solution. NOTE: Each correct selection is worth one point.

- A. OneDrive for Business
- B. OneDrive
- C. the USB flash drive
- D. the secondary partition on the system drive
- E. the drive mapped to a network share

Answer: CD

QUESTION 272

Suppose the sales personnel of your organization use a variety of Windows 10 computers and devices.

When using their desktop computers, which tile will not display in Action Center?

- A. Rotation lock
- B. Tablet mode
- C. Connect
- D. VPN
- E. Location
- F. None of the previously mentioned options

Answer: A

QUESTION 273

You are an IT support professional in a well-renowned organization and your company has successfully upgraded 60,000 computers to Windows 10 Enterprise.

How long will Microsoft offer your company support for?

- A. 12 months
- B. 18 months
- C. 24 months
- D. 30 months

Answer: D

QUESTION 274

What of the following criteria can you use to configure a firewall to block or allow traffic?

- A. The traffic source address
- B. The traffic source subnet
- C. The traffic source router
- D. The traffic source user
- E. All of the previously mentioned options

Answer: A

QUESTION 275

If you are preparing to troubleshoot a user's computer and you plan to gather information about the problem using the tools available on the computer, which of the following tools is not included in Windows 10?

- A. Reliability History
- B. Message Analyzer
- C. Event Viewer
- D. Task Manager
- E. All of the previously mentioned options are included

Answer: B

QUESTION 276

When troubleshooting hardware and drivers, which of the following registry hives is the one that you will likely edit the most?

- A. HKEY_CLASSES_ROOT
- B. HKEY_CURRENT_USERS
- C. HKEY_LOCAL_MACHINE
- D. HKEY_USERS
- E. HKEY_CURRENT_CONFIG

Answer: C

QUESTION 277

You have a computer named Computer1 that runs Windows 10. From Event Viewer on Computer1, you have a task named Action1 that is attached to the following event:

- Log: System
- Source: Kernel-General
- Event ID: 16

You need to modify the settings of Action1. What should you use?

- A. The Settings app
- B. Task Scheduler
- C. Event Viewer
- D. System Configuration

Answer: B

QUESTION 278

Where can you find a list of both the updates that are applied to a Windows 10 computer and those that have failed to apply?

- A. Update log
- B. Check for updates
- C. Update history
- D. Task Manager
- E. Event Viewer

Answer: C
