#### **QUESTION 158**

You have computers that run Windows 10 and are managed by using Microsoft Intune. Users store their files in a folder named D:\Folder1. You need to ensure that only a trusted list of applications is granted write access to D:\Folder1. What should you configure in the device configuration profile?

- A. Microsoft Defender SmartScreen
- B. Microsoft Defender Exploit Guard
- C. Microsoft Defender Application Guard
- D. Microsoft Defender Application Control

**Answer: B**

**Explanation:**

<https://www.microsoft.com/security/blog/2017/10/23/windows-defender-exploit-guard-reduce-the-attack-surface-against-next-generation-malware/>

#### **QUESTION 159**

You need to enable Windows Defender Credential Guard on computers that run Windows 10. What should you install on the computers?

- A. Hyper-V
- B. Windows Defender Application Guard
- C. a guarded host
- D. containers

**Answer: A**

#### **QUESTION 160**

You have an Azure Active Directory (Azure AD) tenant and 100 Windows 10 devices that are Azure AD joined and managed by using Microsoft Intune. You need to configure Microsoft Defender Firewall and Microsoft Defender Antivirus on the devices. The solution must minimize administrative effort. Which two actions should you perform? Each correct answer presents part of the solution. NOTE: Each correct selection is worth one point.

- A. To configure Microsoft Defender Antivirus, create a device configuration profile and configure the Endpoint protection settings.
- B. To configure Microsoft Defender Firewall, create a device configuration profile and configure the Device restrictions settings.
- C. To configure Microsoft Defender Firewall, create a Group Policy Object (GPO) and configure Windows Defender Firewall with Advanced Security.

**[MD-101 Exam Dumps](#) [MD-101 Exam Questions](#) [MD-101 PDF Dumps](#) [MD-101 VCE Dumps](#)**

**<https://www.braindump2go.com/md-101.html>**

- D. To configure Microsoft Defender Antivirus, create a Group Policy Object (GPO) and configure Windows Defender Antivirus settings.
- E. To configure Microsoft Defender Antivirus, create a device configuration profile and configure the Device restrictions settings.
- F. To configure Microsoft Defender Firewall, create a device configuration profile and configure the Endpoint protection settings.

**Answer:** AF

**Explanation:**

F: With Intune, you can use device configuration profiles to manage common endpoint protection security features on devices, including:

- Firewall
- BitLocker
- Allowing and blocking apps
- Microsoft Defender and encryption

Reference:

<https://docs.microsoft.com/en-us/mem/intune/protect/endpoint-protection-configure>

<https://docs.microsoft.com/en-us/mem/intune/protect/endpoint-security-policy#create-an-endpoint-security-policy>

#### **QUESTION 161**

You have a Microsoft 365 subscription.

You need to deploy Microsoft Office 365 ProPlus applications to Windows 10 devices.

What should you do first?

- A. From Microsoft Azure Active Directory (Azure AD), create an app registration.
- B. From the Device Management admin center, create an app.
- C. From the Device Management admin center, create an app configuration policy.
- D. From the Device Management admin center, enable Microsoft Store for Business synchronization.

**Answer:** B

**Explanation:**

<https://docs.microsoft.com/en-us/mem/intune/apps/apps-add-office365>

#### **QUESTION 162**

You have Windows 10 devices that are managed by using Microsoft Intune. Intune and the Microsoft Store for Business are integrated.

You need to deploy the Remote Desktop modern app as an automatic install to the Windows 10 devices without user interaction.

Which three actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Create an Azure Active Directory group that contains all users.
- B. From the Intune portal, create a Microsoft Store app for the Remote Desktop modern app.
- C. From the Intune portal assign the app to the Azure Active Directory group.
- D. Create an Azure Active Directory group that contains the Windows 10 devices.
- E. From the Microsoft Store for Business portal, assign a license for the app to all the users in the Azure Active Directory group.
- F. For your organization, make the app available in the Microsoft Store for Business.

**Answer:** BCD

**Explanation:**

<https://docs.microsoft.com/en-us/mem/intune/apps/apps-add>

<https://docs.microsoft.com/en-us/mem/intune/apps/apps-deploy>

<https://docs.microsoft.com/en-us/mem/intune/apps/windows-store-for-business>

**QUESTION 163**

You have devices enrolled in Microsoft Intune as shown in the following table.

Name	Platform
Device1	Windows 8.1
Device2	Windows 10
Device3	Android
Device4	iOS

On which devices can you apply app configuration policies?

- A. Device1, Device2, Device3, and Device4
- B. Device2 only
- C. Device3 and Device4 only
- D. Device1 and Device2 only
- E. Device2, Device3, and Device4 only

**Answer: C**

**Explanation:**

App configuration policies are only required for iOS/iPadOS or Android apps

Reference:

<https://docs.microsoft.com/en-us/mem/intune/apps/app-configuration-policies-overview>

**QUESTION 164**

Hotspot Question

You have an Azure Active Directory (Azure AD) tenant named contoso.com that contains a user named User1. User1 has the devices shown in the following table.

Name	Platform	Registered in contoso.com
Device1	Windows 10	No
Device2	Android	Yes
Device3	iOS	Yes

On September 5, 2019, you create and enforce a terms of use (ToU) in contoso.com. The ToU has the following settings:

- Name: Terms1
- Display name: Terms name
- Require users to expand the terms of use: Off
- Require users to consent on every device: On
- Expire consents: On
- Expire starting on: October 10, 2019
- Frequency Monthly

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Statements	Yes	No
User1 will be prompted to accept Terms1 on Device1.	<input type="radio"/>	<input type="radio"/>
User1 will be prompted to accept Terms1 on Device2.	<input type="radio"/>	<input type="radio"/>
User1 will be prompted to accept Terms1 on Device3.	<input type="radio"/>	<input type="radio"/>

**Answer:**

Statements	Yes	No
User1 will be prompted to accept Terms1 on Device1.	<input checked="" type="radio"/>	<input type="radio"/>
User1 will be prompted to accept Terms1 on Device2.	<input checked="" type="radio"/>	<input type="radio"/>
User1 will be prompted to accept Terms1 on Device3.	<input checked="" type="radio"/>	<input type="radio"/>

**Explanation:**

<https://docs.microsoft.com/en-us/azure/active-directory/conditional-access/terms-of-use#frequently-asked-questions>

**QUESTION 165**

Hotspot Question

You have an Azure Active Directory (Azure AD) tenant named contoso.com that contains the devices shown in the following table.

Name	Operating system
Device1	Windows 10
Device2	Android 8.0
Device3	Android 9
Device4	iOS 11.0
Device5	iOS 11.4.1

All devices contain an app named App1 and are enrolled in Microsoft Intune.

You need to prevent users from copying data from App1 and pasting the data into other apps.

Which type of policy and how many policies should you create in Intune? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer Area**

Policy type:

	▼
App configuration policy	
App protection policy	
Conditional access policy	
Device compliance policy	

Minimum number of policies:

	▼
1	
2	
3	
4	
5	

**Answer:**

**Answer Area**

Policy type:

	▼
App configuration policy	
App protection policy	
Conditional access policy	
Device compliance policy	

Minimum number of policies:

	▼
1	
2	
3	
4	
5	

**Explanation:**

<https://docs.microsoft.com/en-us/mem/intune/apps/app-protection-policies-configure-windows-10>

**QUESTION 166**

Hotspot Question

You have an Azure Active Directory (Azure AD) tenant named contoso.com that contains the users shown in the following table.

Name	Member of
User1	Group1
User2	Group2

Contoso.com contains the devices shown in the following table.

Name	Platform	Member of	Microsoft Intune managed
Device1	Windows 10	GroupA	Yes
Device2	Windows 10	GroupB	No

In Intune, you create the app protection policies shown in the following table.

Name	Platform	Enrollment state	Assigned to
Policy1	Windows 10	With enrollment	Group1
Policy2	Windows 10	Without enrollment	Group2
Policy3	Windows 10	With enrollment	GroupA
Policy4	Windows 10	Without enrollment	GroupB

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

### Answer Area

Statements	Yes	No
When User1 signs in to Device1, Policy1 applies.	<input type="radio"/>	<input type="radio"/>
When User2 signs in to Device1, Policy2 applies.	<input type="radio"/>	<input type="radio"/>
When User2 signs in to Device2, Policy2 applies.	<input type="radio"/>	<input type="radio"/>

Answer:

### Answer Area

Statements	Yes	No
When User1 signs in to Device1, Policy1 applies.	<input checked="" type="radio"/>	<input type="radio"/>
When User2 signs in to Device1, Policy2 applies.	<input type="radio"/>	<input checked="" type="radio"/>
When User2 signs in to Device2, Policy2 applies.	<input checked="" type="radio"/>	<input type="radio"/>

**Explanation:**

<https://docs.microsoft.com/en-us/mem/intune/apps/app-protection-policy>

#### QUESTION 167

Hotspot Question

Your company has computers that run Windows 10 and are Microsoft Azure Active Directory (Azure AD)-joined.

The company purchases an Azure subscription.

You need to collect Windows events from the Windows 10 computers in Azure. The solution must enable you to create alerts based on the collected events.

What should you create in Azure and what should you configure on the computers? To answer, select the appropriate

**<https://www.braindump2go.com/md-101.html>**

options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer Area**

Resource to create in Azure:

	▼
An Azure event hub	
An Azure Log Analytics workspace	
An Azure SQL database	
An Azure Storage account	

Configuration to perform on the computers:

	▼
Configure the Event Collector service	
Create an event subscription	
Install the Microsoft Monitoring Agent	

Answer:

**Answer Area**

Resource to create in Azure:

	▼
An Azure event hub	
An Azure Log Analytics workspace	
An Azure SQL database	
An Azure Storage account	

Configuration to perform on the computers:

	▼
Configure the Event Collector service	
Create an event subscription

**QUESTION 168**

Hotspot Question

Your company uses Microsoft System Center Configuration Manager (Current Branch) and purchases 365 subscription.

You need to set up Desktop Analytics for Configuration Manager.

What should you do? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer Area**

Set up the Desktop Analytics cloud service by using:

	▼
The Configuration Manager console	
The Microsoft 365 admin center	
The Microsoft Endpoint Manager admin center	

From the Configuration Manager console, select:

	▼
Add Microsoft Intune Subscription	
Configure Azure Services	
Configure co-management	
Create Cloud Management Gateway	

**Answer:**

**Answer Area**

Set up the Desktop Analytics cloud service by using:

	▼
