What will be excluded from the export?

A. a 10-MB XLSX file
B. a 5-MB MP3 file
C. a 5-KB RTF file
D. an 80-MB PPTX file

Answer: B
Explanation:
Unrecognized file formats are excluded from the search.
Certain types of files, such as Bitmap or MP3 files, don't contain content that can be indexed. As a result, the search indexing servers in Exchange and SharePoint don't perform full-text indexing on these types of files. These types of files are considered to be unsupported file types.
