QUESTION 52
A company wants to make use of Windows Hello for business when it comes to authentication.
Which of the following are the authentication techniques available for Windows Hello for business? Choose 3 answers

from the options given below

A. PIN
B. Facial Recognition
C. Email message
D. Password
E. Fingerprint recognition

Answer: ABE
Explanation:
The entire purpose of Windows Hello for business is to ensure passwords are not used in the authentication process.
Here uses can use other techniques for authentication via the usage of PIN's and biometric recognition.
Options C and D are incorrect since Windows Hello for Business tries to ensure that secure measures are used for the authentication process.
